DESCRIPTION

The design work of the well known architect Damian Ribas is visible in this property, and is primarily accentuated on the seamless integration into its closest environment, using natural, local materials, as well as the resembling neutral and clear Mediterranean colors – enhancing the panoramic views.

A functional design approach is chosen, aiming for a sustainable, timeless, and most importantly lasting product.

The house is generously distributed into two double suites, third bedroom, bathroom, fourth single bedroom with en-suite kitchen (service), spacious living room, porch, as well as summer lounge, swimming pool, and gardens. Parking area. Total plot area of 482m², and 130m² building (including porches).

Expected delivery on Oct. 2018.
